URETERAL STENTS OR DJ STENTS - SILICONISED

Used for internal drainage from the Uretropelvic junction to the bladder. Designed for long term indwelling.

Key features:

- Silicon - Polyurethane blended biocompatible material for patient safety and comfort
- Long term indwelling stents
- Marker bands for easy placements
- Highly Radiopaque for clear visualization
- Wide lumen ensures a superior drainage
- Stents are tapered at both ends, that helps in easy penetration to the exact location
- Can be kept indwelling for 365 days

Classification:

E - 1/7 Neptune Society, Kalyani Nagar, Pune - 411006, Maharashtra, India. Tel +91 20 26681483, Fax +91 20 26681500
