

# PCN DIRECT PUNCTURE SET - MALECOT

Used for percutaneous placement of a malecot catheter in the renal pelvis for nephrostomy drainage. Designed for single use only.

## Key features:

- Highly radiopaque for better visualization.
- The Malecot flower design enhanced drainage and promotes catheter retention.
- Round tip malecot catheter reduces the trauma to the tissue.

## Classification:

Malecot Catheter is supplied along with a Puncture Needle.

Available with / without Hydrophilic Coating.
