URETERAL STENTS OR DJ STENTS - CARBOTHANE

Used for internal drainage from the Uretropelvic junction to the bladder. Designed for mid-term indwelling.

Key features:

- Highly radiopaque for better visualization
- Tapered at both the ends - for easy insertion
- Pigtail shape prevents stent migration
- Thin wall design for maximum drainage
- Smooth surface for easy insertion
- Available as a set with Guidewire, Clamp & Suture
- Available in White & Blue colour.

Classification:
